

Since their foundation in 2015, Cevotec already evolved to the leading developer and provider of patch-based manufacturing technologies for fiber composites. With the production system SAMBA and the CAE software ARTIST STUDIO, we offer one of most advanced manufacturing systems worldwide, and we will further extend our portfolio of process and software technologies in the future. It's our own software development in particular that enables us to implement advanced processes while keeping the design process easy and efficient for the user.

We follow a big vision: We want to revolutionize the composites industry and establish Fiber Patch Placement as a new global standard. Let us jointly set milestones in future lightweight strategies - **milestones in composites**.

Starting at the earliest date possible, we are looking for a

Junior C++ Software Developer (m/f/d)

Your responsibilities

- Build, extend and improve as a full-stack software developer our design and robot software ARTIST STUDIO
- Bring in your own ideas and create own innovations in the field of Computer Aided Engineering (CAE)
- Work with our developers to design algorithms
- Troubleshoot, debug and upgrade the software
- Integrate components and third-party programs
- Create technical documentation for reference and reporting

Your qualifications

- You have a degree in informatics, computer science or engineering natural sciences or similar
- You have program experiences in C++ with Visual Studio
- Another plus: experience with Qt for GUI dev
- You have team spirit, creativity and a high sense of responsibility
- You have good German or English language skills (written and spoken)
- You are well organized and clearly structured

Our offer

- Join our small team of professional and highly skilled software developers
- Become part of a quality-driven work culture in an agile environment
- Increase your programming knowledge & check the results directly with our manufacturing system SAMBA
- Benefit from flat hierarchies, fast decision-making, individual responsibility
- Start-up goodies like free drinks & snacks, fruits, coffee; canteen allowance

We are passionately building a leading high-tech start-up. If you want to be part of our experienced and highly motivated team, convince us with your application.

Please send your CV, cover letter and references, along with your earliest entry date and salary expectations to **Annika Frauendorfer (HR Business Partner)**, career@cevotec.com. Questions upfront? Call us at +49 89 2314 165-55.

do your thing. do it cevo.
